Statistical Methodology

Survey procedures: Grower surveys are conducted in the three estimating States (Washington, Idaho, and Oregon) to collect stocks of hops held by growers. Additionally, contacts are made to collect stocks held by brewers and dealers. Telephone follow-up of mail survey non-respondents is used to ensure adequate coverage.

Estimating procedures: Information obtained from the hops stocks grower, dealer, and brewers surveys are used to establish estimates of hops stocks. These estimates are reviewed for errors, reasonableness, and consistency with historical estimates.

Revision policy: Hop stocks are subject to revision the following estimating period following initial publication and again in the following March *Hop Stocks* report. Revisions can be made when late reports are received, errors are detected in reporting and calculations, or production estimates are revised. Estimates will also be reviewed following the 5-Year Census of Agriculture. No revisions to these years will be made after that date.

Reliability: Survey indications are subject to sampling variability because all operations storing hops are not included in the sample. Survey results are also subject to non-sampling errors such as omission, duplication, imputation for missing data, and mistakes in reporting, recording, and processing the data. These errors cannot be measured directly, but are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

USDA Data Users' Meeting
Monday, October 20, 2014

Crowne Plaza Chicago-Metro
Chicago, Illinois 60661
312-829-5000

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and the World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at <http://www.nass.usda.gov/meeting/> or contact Rose Armstrong (NASS) at (202) 720-3896 or at rose.armstrong@nass.usda.gov.

This Data Users' Meeting precedes the Industry Outlook Conference that will be held at the same location on Tuesday, October 21, 2014. The outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Conference, see the conference webpage on the LMIC website: <http://www.lmic.info/IOC/>. Or call the Livestock Marketing Information Center (LMIC) at (303) 236-0460.
